BURGLAR AT NIGHT**

Young Philadelphia Medical Student is Killed After Many Successful Escapades

NEVER EVEN SUSPECTED

Anthony William Hoffmeyer Offers Strange Case—X-ray of Mental Disease Is Belief

PHILADELPHIA, July 16.—Mr. and Mrs. Frank Hoffmeyer were not informed last night of their daughter home that their son Anthony William Hoffmeyer, the burgle-student, had been slain outside night while attempting to rob the university of Pennsylvania's Fraternity house.

The case of the student houses' usual features. It was a second year medical student at the university and was said to have been an unusually quiet youth. While robbing the fraternity house, a professor who left saw he was escaping with a bag.

A search of his room by the police there will reveal about \$4,000 worth of plunder stolen from fraternity houses, boarding houses and other places.

Consequently student day star

ing burglar night. This is the second case successfully placed by Hoffmeyer for months. Professors in the university medical school were him up as a "bullet student" and a "plunger."

One medical professor said today that Hoffmeyer was probably the victim of delusions of grandeur. He believes that he was a Napoleon and god sent for the pleasure of robbing because he did not deserve his rank. His habits and actions indicate that he had a mental condition. "He had an aversion to society though he was immediately fond of music and played a piano for hours at a time," he says.

The success of Hoffmeyer set his midnight role of burglar that the family in whose house he roamed did not suspect that he slipped from the house to rob after they had gone to bed. They said that the student habitually retired early with the excuse that he must study. None of his friends had the slightest suspicion that the soft-spoken, shy student was a burglar.

Repeal of Soda Water Tax Is Decided Upon

WASHINGTON, July 16.—Repeal of the soda water tax was decided on today by republican leaders of the house. The decision which was made by the republican steering committee, will be referred to the ways and means committee, which will draft a repeal measure. Some leaders predicted that the tax, which levies an impost of 10 per cent on soft drinks and ice cream, would be repealed within a month.

**AMERICANS THINK POLES
AND HUNS WILL HARMONIZE**

By The Associated Press.

PARIS, July 16.—The Americans as well as others of the peace delegations seem confident that the difficulties between the Poles and the Germans can be adjusted so as to hold the plebiscite in Upper Silesia without the necessity of using foreign military force. Plans for the plebiscite are being perfected rapidly.

All German and Polish soldiers will leave the district peacefully, according to present indications, and enable the allies to organize a local peace force sufficiently strong to insure proper conduct of the ballot.

The United States, as well as the other powers, it is said, has expressed its desire to send troops to Upper Silesia if necessary. The delegates generally are said to be of the opinion that the Germans are disposed to accede to good faith the terms of the peace treaty, and to the suggestion of the Battle of the Piast, Upper Silesia and other parts of Poland occupied by German troops.

There are said to be many indications that the extreme bitterness existing there six months ago is disappearing gradually because of a general desire to avoid further fighting and to begin the work of economic reconstruction.
